Important information

What are my options for paying my bill?

On-line	Pay one-time or recurring on www.sce.com/bill
Mail-in	Check or Money order
In Person	Authorized payment locations 1-800-747-8908
Phone	QuickCheck 1-800-950-2356
	Debit & credit card 1-833-425-1440
Other	PayPal, Venmo, Apple Pay and Google Pay

Electronic check processing

Your check payment will be processed as a one-time Electronic Fund Transfer (EFT). With EFTs, funds may be withdrawn from your account the day we receive your payment. Your check will not be returned, but will appear on your financial statement.

Rates and applicable rules: Available at www.sce.com or upon request.

Past due bills

When is my bill past due? It is past due 20 days after the preparation date, which was 09/12/24.

- Reconnecting service that has been disconnected requires a Service Connection payment (non-residential only).
- Unable to pay: If payment arrangements were not extended to you by SCE pursuant to SCE's filed tariffs, you may contact the California Public Utilities Commission.
- For safety reasons, if service is disconnected, please ensure any sensitive or potentially hazardous equipment is unplugged on the day of reconnection. For additional home safety tips, visit www.sce.com/safety or call SCE at 1-800-655-4555.

What is the Late Payment Charge (LPC)?

0.6% will be applied to the total unpaid balance if payment is not received by the due date on this bill (except for CARE and state agency accounts).

What is a rotating outage?

Rotating outages are controlled electrical outages used to avoid widespread or uncontrolled blackouts. Your Rotating Outage Group number is located on page 1, upper left, of your SCE bill. Your rotating outage group number may change at any time. For more information, visit www.sce.com/rotating outage.

What is the Power Charge Indifference Adjustment (PCIA)?

The PCIA is a charge to ensure that both SCE customers and those who have left SCE service to purchase electricity from other providers pay for the above market costs for electric generation resources that were procured by SCE on their behalf. 'Above market' refers to the difference between what the utility pays for electric generation and current market prices for the sale of those resources.

Disputed bills

If you believe there is an error on your bill or have a question about your service, please call Southern California Edison (SCE) customer support at 1-800-655-4555. If you are not satisfied with SCE's response, submit a complaint to the California Public Utilities Commission (CPUC) at www.cpuc.ca.gov/complaints/. The CPUC's Consumer Affairs Branch (CAB) handles billing and service complaints and can be reached by:

Telephone 1-800-649-7570 (8:30 AM - 4:30 PM, Monday - Friday)

Mail CPUC, Consumer Affairs Branch, 505 Van Ness Ave., Room 2003, San Francisco, CA 94102

If you have limitations hearing or speaking, contact the California Relay Service, which is for those needing assistance relaying telephone conversations. Dial 711 or one of the numbers below to be routed to a California Relay Service provider in your preferred mode of communication.

Type of Call	English	Spanish
TTY/VCO/HCO to Voice	1-800-735-2929	1-800-855-3000
Voice to TTY/VCO/HCO	1-800-735-2922	1-800-855-3000
Speech-to-Speech Relay	1-800-854-7784	1-800-854-7784

To avoid having service turned off while waiting for the outcome of a complaint to the CPUC regarding the accuracy of your bill, contact CAB for assistance. If your case meets the eligibility criteria, CAB will instruct you on how to mail a check or money order to be impounded pending resolution of your case. You must continue to pay your current charges while your complaint is reviewed to keep your service turned on.

Definitions

- Baseline Credit:** The baseline credit provides reduced electricity rates on electricity used up to the baseline allocation for the region that you live in.
- CA Climate Credit:** Credit from state effort to fight climate change. Applied monthly to eligible businesses and semi-annually to residents.
- Wildfire Fund Charge:** Supports the California Wildfire Fund which covers costs associated with catastrophic wildfires, including payment of bonds issued by the California Department of Water Resources (DWR)
- Public Purpose Programs Charge:** Funds state-mandated programs for low income discounts, energy efficiency, renewable energy and R&D.
- SCE Generation:** For recovering energy procurement and generation costs for that portion of your energy provided by SCE.

To change your contact information or enroll in SCE's payment option, complete the form below and return it in the enclosed envelope.

Things you should know

Fixed Recovery Charge

SCE has been permitted to issue bonds that enable it to recover more quickly certain costs related to preventing and mitigating catastrophic wildfires. Your bill for electric service includes a Fixed Recovery Charge that has been approved by the CPUC to repay those bonds. The right to recover the Fixed Recovery Charge has been transferred to a separate entity (called the Special Purpose Entity) that issued the bonds and does not belong to SCE. SCE is collecting the Fixed Recovery Charge on behalf of the Special Purpose Entity.

Stay in Control

If you're behind on payments, enrolled in a payment plan, or facing disconnection, we offer options and energy management solutions to help you stay in control of your bill and costs. Learn more at www.sce.com/billsupport.

SCE's APA Locations Are Changing August 16, 2024

Beginning on August 16, 2024, Western Union will be SCE's new Authorized Payment Agency (APA) for in-person payments (no fees charged). Only cash payments will be accepted. Locations other than Western Union will charge a fee for SCE payments.*

Visit sce.com/apa to find an APA near you or review the requirements for APA payments. We offer other payment options, including debit and credit card payment, at sce.com/billpay.

**Federal requirements apply for identification on large value transactions..*

Public Safety Power Shutoffs

- It is a tool of last resort to mitigate wildfire risk during dangerous fire weather conditions. We recognize these outages are difficult for our customers.
- We continue to reduce the size, frequency and duration of PSPS events.
- It will remain a tool to mitigate wildfire risk during severe weather and high fire potential index events to keep communities safe from wildfires.

We urge customers to update their contact information and sign up for PSPS alerts at: www.sce.com/outage. To learn more about Public Safety Power Shutoffs, visit: www.sce.com/pssp.

UNDERSTANDING EMF

ELECTRIC AND MAGNETIC FIELDS

Questions have been raised about the possible health effects of exposure to 60-hertz (power frequency) electric and magnetic fields (EMF*), which are found wherever you have electric power. This article contains information that will help you understand the EMF issue, plus practical tips you can use if you want to reduce your exposure at home and at work.

Campos Eléctricos y Magnéticos (EMF):
Si desea recibir información en español, comuníquese con SCE al 1-800-441-2233

EMF information provided as required by the California Public Utilities Commission (CPUC) EMF policy.

*The term EMF in this publication refers to extremely low frequency (ELF) 60-hertz electric and magnetic fields associated with power delivered by electric utilities. It does not refer to radio frequency (RF) waves associated with wireless communications such as cell phones.

Can EMF Harm Your Health?

Electric and magnetic fields are present wherever electricity flows--around appliances and power lines, in offices, and at schools and homes. Many researchers believe that if there is a risk of adverse health effects from usual residential exposures to EMF, it is probably just at the detection limit of human health studies; nonetheless, the possible risk warrants further investigation. The varying results from epidemiological studies, which looked at estimated EMF exposures and childhood leukemia, are consistent with a weak link. Laboratory studies, including studies investigating a possible mechanism for health effects (mechanistic studies), provide little or no evidence to support this weak link.

The results from many research studies have been evaluated by international, national, and California EMF research programs to determine whether EMF poses any health risk. Given the uncertainty of the issue, the medical and scientific communities have been unable to conclude that usual residential exposures to EMF cause health effects, or to establish any standard or level of residential exposure that is known to be either safe or harmful. These conclusions remain unchanged by recent studies.

World Health Organization Findings

The World Health Organization (WHO) completed a review of the potential health implications of extremely low frequency EMF, which includes power-frequency fields. Their conclusions and recommendations were presented in a June 2007 report known as the *Extremely Low Frequency Fields, Environmental Health Criteria Monograph No. 238*

The WHO report concluded that evidence linking Extremely Low Frequency (ELF) magnetic fields and childhood leukemia "is not strong enough to be considered causal but sufficiently strong to remain a concern." "Virtually all of the laboratory evidence and the mechanistic evidence fail to support" this reported association. For all other diseases, there is inadequate or no evidence of health effects at low exposure levels.

The report emphasized that, given the weakness of the evidence for health effects, the health benefits of exposure reduction are unclear and adopting policies based on arbitrary low exposure limits is not warranted. In light of this situation, WHO made these and other recommendations:

- * National authorities should implement communication programs with all stakeholders to enable informed decision-making, including how individuals can reduce their own exposure.
- * Policy makers and community planners should implement very low-cost measures to reduce exposures when constructing new facilities and designing new equipment, including appliances.
- * Policy makers should establish guidelines for ELF field exposure for both the general public and workers. The best source of guidance for both exposure levels and the principles of scientific review are the international guidelines.
- * Government and industry should promote research to reduce the uncertainty of the scientific evidence on the health effects of ELF field exposure. Several recommended research projects are already under way through the Electric Power Research Institute.

To view the full report visit www.who.int/publications/i/item/9789241572385

Magnetic Fields at Home (Measurements are in milligauss.)			
	1.2" away	12" away	36" away
 Microwave Oven	750 to 2,000	40 to 80	3 to 8
 Clothes Washer	8 to 400	2 to 30	0.1 to 2
 Electric Range	60 to 2,000	4 to 40	0.1 to 1
 Compact Fluorescent Bulb	0 to 32.8	0 to 0.1	0
 Hair Dryer	60 to 20,000	1 to 70	0.1 to 3
 LCD/Plasma TV	1.1 to 73.6	0 to 2.5	0 to 2.2

Magnetic Fields Outside (Maximum values may be lower for some California utilities.)	
 Distribution Lines	1 to 80 milligauss under the line
 Transmission Lines	1 to 300 milligauss at the edge of the right-of-way

(EMF continued on the reverse side)

EMF (continued from front)

What You Can Do

In a situation of scientific uncertainty and public concern, WHO recommended that utilities explore 'very low-cost' ways to reduce EMF exposure from new or upgraded facilities. SCE and other California public utilities have been pursuing no-cost and low-cost measures to reduce EMF levels from new utility transmission lines and substation projects. You, too, may want to take no-cost and low-cost measures to reduce your EMF exposure at home and at work.

Human studies have not produced a consensus about any health benefits from changing the way people use electric appliances. But, if you feel reducing your EMF exposure would be beneficial, you can increase your distance from electric appliances and/or limit the amount of time you use appliances at home or at work. For instance, you can place your electric clocks away from the head of your bed. Increasing your distance from it and other appliances, such as televisions, computer monitors, and microwave ovens, can reduce your EMF exposure.

You can also reduce your EMF exposure by limiting the time you spend using personal appliances, such as hair dryers, electric razors, heating pads, and electric blankets. You may also want to limit the time you spend using electric cooking appliances.

You can locate the sources of EMF in your work environment and spend break time in lower-field areas.

It is not known whether such actions will have any impact on your health.

Additional Information Is Available

SCE provides free EMF information packages and home/business measurements upon request. For any of these services, please call 1-800-200-4723 (4SCE) or visit www.sce.com/EMF.

Additional information is also available at these links:

**NOTICE OF APPLICATION OF
SOUTHERN CALIFORNIA EDISON COMPANY
TO DECREASE ELECTRIC RATES
APPLICATION A.24-05-025**

Why am I receiving this notice?

On May 30, 2024, Southern California Edison Company (SCE) filed an application with the California Public Utilities Commission (CPUC) requesting an expedited review and approval of its 2024 Energy Resource Recovery Account (ERRA) Revenue Requirement Trigger Mechanism Application (Application). The ERRA functions to recover the fuel and power procurement costs that SCE incurs to provide electric service to its customers.

Why is SCE requesting this rate decrease?

As of April 30, 2024, SCE is forecasting to spend \$742.426 million less in procurement costs than has been recovered in customer rates. This is known as the “overcollection amount.” This was due to a variety of factors including lower wholesale power prices. SCE requested the CPUC allow the overcollection amount in rates beginning October 1, 2024. If SCE’s application is approved, your rates may decrease as reflected in the table below.

How could this affect my monthly electric rates?

The average non-CARE residential monthly bill using 500 kWh per month would decrease by approximately 4.4% (or \$7.98) per month. This is an estimate based on current rates, which may change by October 1, 2024.

CUSTOMER BILL IMPACT TABLE

Bundled Average Rates (¢/kWh)				
Customer Group	Current Rates	Proposed Change	Proposed Rates	% Change
Residential	33.77	(1.51)	32.26	-4.5%
Lighting - Small and Medium Power	30.05	(1.46)	28.60	-4.8%
Large Power	20.51	(1.19)	19.32	-5.8%
Agricultural and Pumping	23.99	(1.25)	22.74	-5.2%
Street and Area Lighting	36.46	(0.86)	35.61	-2.4%
Standby	17.00	(1.16)	15.84	-6.8%
Total	28.47	(1.39)	27.08	-4.9%

Residential Bill Impact (\$/Month)				
Description	Current	Proposed Change	Proposed	% Change
Non-CARE residential bill	\$180.40	(\$7.98)	\$172.42	-4.4%
CARE residential bill	\$122.12	(\$5.40)	\$116.73	-4.4%

How does the rest of this process work?

This application was assigned to a CPUC Administrative Law Judge who considered proposals and evidence presented during the formal hearing process. The Administrative Law Judge issued a proposed

decision on July 22 adopting SCE's request. The proposed decision was discussed and approved by the CPUC Commissioners at a public CPUC Voting Meeting on August 1, 2024.

Parties to the proceeding reviewed SCE's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit www.Publicadvocates.cpuc.ca.gov.

Where can I get more information?

Contact SCE:

If you have any questions about SCE's request, you can contact them at:

Phone: 1-800-655-4555

Email: case.admin@sce.com

Mail: Eric Lee

Southern California Edison Company

A.24-05-025 - SCE's 2024 ERRR Trigger Application

P.O. Box 800 Rosemead, CA 91770

A copy of the Application and any related documents may also be reviewed at www.sce.com/applications by searching for the Application name or A.24-05-025.

Contact CPUC:

If you have questions about CPUC processes, you may contact the CPUC's Public Advisor's Office at:

Email: Public.Advisor@cpuc.ca.gov

Phone: 1-866-849-8390 (toll-free) or 1-415-703-2074

Mail: CPUC Public Advisor's Office

505 Van Ness Avenue

San Francisco, CA 94102

If your communication with the CPUC is specific to this proceeding, please reference SCE's ERRR Trigger Application 24-05-025.

Para más información en cómo este cambio impactará su factura, descargar esta notificación en español en el sitio Web de SCE www.sce.com/avisos

**NOTICE OF APPLICATION
SOUTHERN CALIFORNIA EDISON COMPANY'S REQUEST TO INCREASE ELECTRIC RATES
APPLICATION [A.24-08-003]**

Why am I receiving this notice?

On August 2, 2024, Southern California Edison Company (SCE) filed an application (A.24-08-003) with the California Public Utilities Commission (CPUC) requesting approval to sell SCE's General Office #5 (GO5) property in Rosemead, California (GO5 Application). The application seeks approval of a revenue increase of approximately \$40.9 million, which, after taxes, will equate to a recovery of approximately \$29.4 million.

If the CPUC approves this application, SCE will recover forecasted costs in electric rates over a one-year period beginning the year of the closing of the transaction. This will impact your monthly bill.

Why is SCE requesting this rate increase?

- SCE is seeking to sell its ground lease interest in the property because (a) SCE has consolidated its workforce to other SCE buildings and (b) the building requires significant seismic retrofitting, which SCE does not think would be a prudent expenditure.
- Although the sale will result in a one-time after-tax loss of approximately \$29.4 million, the sale will save certain on-going operating, maintenance, lease and other costs for a property no longer required for SCE operations.
- SCE's revenue billed to customers will subsequently be reduced by eliminating the return on SCE's investment in the property not yet collected to date and maintenance costs upon the closing of the sale.

How could this affect my monthly electric rates?

If SCE's rate request is approved by the CPUC, the average residential monthly bill using 500 kWh per month would increase by approximately \$0.36 or 0.2% per month in the year following the close of the sale.

CUSTOMER BILL IMPACT TABLE

Bundled Average Rates (¢/kWh)				
Customer Group	Current Rates	Proposed Change	Proposed Rates	% Change
Residential	33.2	0.07	33.3	0.2%
Lighting - Small and Medium Power	29.5	0.06	29.6	0.2%
Large Power	20.1	0.04	20.1	0.2%
Agricultural and Pumping	23.6	0.04	23.6	0.2%
Street and Area Lighting	36.4	0.04	36.4	0.1%
Standby	16.6	0.02	16.6	0.1%
Total	28.0	0.05	28.0	0.2%

Residential Bill Impact (\$/Month)				
Description	Current	Proposed Change	Proposed	%Change
Non-CARE residential bill	\$177.50	\$0.36	\$177.87	0.2%
CARE residential bill	\$120.16	\$0.25	\$120.40	0.2%

The projected rate increase described in this notice is a forecast and is likely to slightly change depending on the month and year in which the sale of the GO5 property closes.

How does the rest of the process work?

This GO5 Application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt SCE's application, modify it, or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.

Parties to the proceeding may review SCE's application, including the Public Advocates Office. The Public Advocates Office is an independent consumer advocate within the CPUC that represents customers in order to obtain the lowest possible rate for service consistent with reliable and safe service levels. For more information about the Public Advocates Office, please call 1-415-703-1584, email PublicAdvocatesOffice@cpuc.ca.gov, or visit www.PublicAdvocates.cpuc.ca.gov.

Where can I get more information?

Contact SCE
